Posh Pup Spa's Mission

To have your pet feeling and looking fabulous.

Why Posh Pup Spa?

At Posh Pup Spa your pet enjoys luxurious body treatments and is pampered with our finest all-natural products. We work in a safe and relaxing environment, where sedatives are never used.

Check-In

Upon check-in, we provide a warm spa robe and introduce your pet to Posh Pup Spa's "Zen Den". Here they can relax in one of our therapeutic spa beds before beginning their spa treatment.

Hand-Scissored Pet Trims

We are best known for our hand-scissored trims, provided by professional pet stylists. We prefer styling to breed profile, but understand different tastes and respect owners' specific requests.

Semi-Private Services

To provide your pup with the highest quality of individual attention and maintain our soothing spa environment, the number of pups per day is limited.

Our Recommendation

Your pet requires a regular pampering schedule to keep their coat clean, beautiful and matt free. With regular pampering, we should never have to shave off your pet's coat.
